

Here are some of the new IPTV features and services:

ManageMyTV's App. Turn your iOS or Android devices into a remote control. You can manage your recordings and view guide data remotely.

Cloud DVR. Save your recordings in our Cloud rather than on a DVR set top box in your house. Access those recordings from any IPTV box on your account.

Restart TV. Gives you the ability to restart a program that is already in progress. If you are browsing channels and see a program that you would like to watch, but it has already started, then you can restart it and watch it from the beginning.

What Do I Do When...

MY CABLE IS OUT

Do you have more than 1 television hooked up to cable?

If there is a cable outage, all tv's will be out. If one tv is working, it may be a problem with the television or a wire in the house.

Do you have a digital box?

If so, your television needs to be on the correct video input.

MY CABLE BOX IS NOT WORKING PROPERLY

Example: The guide feature isn't displaying accurately. Reboot your system. Simply shut off the box and unplug it for 2 minutes. Plug it back in and restart normal functions. If this doesn't work, give us a call at 800.252.1799 to further troubleshoot.

A CHANNEL IS NOT WORKING

Example: Channel 24 is going in and out of service. Give us a call! Your help in reporting channel problems can often times speed up the repair process. You may notify CASSCOMM of channel problems we may not otherwise be aware of.

Prices listed are before taxes, fees & surcharges. rev 05/1/19
