What Do I Do When...

MY CABLE IS OUT

Do you have more than 1 television hooked up to cable?

If there is a cable outage, all tv's will be out. If one tv is working, it may be a problem with the television or a wire in the house.

Do you have a DVD player?

If so, it may be turned on. Turn the device off.

Do you have a digital box?

If so, your television needs to be on channel 3 or the correct video input.

MY DVR BOX OR CABLE BOX IS NOT WORKING PROPERLY

Example: The guide feature isn't displaying accurately.

Reboot your system. Simply shut off the box and unplug it for 2 minutes. Plug it back in and restart normal functions. If this doesn't work, give us a call at 800.252.1799 to further troubleshoot.

A CHANNEL IS NOT WORKING

Example: Channel 24 is going in and out of service.

Give us a call! Your help in reporting channel problems can often times speed up the repair process. You may notify CASSCOMM of channel problems we may not otherwise be aware of.
