FOR IMMEDIATE RELEASE

CASSCOMM Increasing broadband speeds

{**Virginia IL, August 26, 2025**} CASSCOMM is pleased to announce that beginning September 1, broadband customers will enjoy faster internet speeds along with newly updated fiber package names at no additional charges.

As part of this upgrade:

- The new **Essential** package will provide **100 Mbps x 100 Mbps** (formerly 75 Mbps x 75 Mbps)
- The new **Stream** package will provide **500 Mbps x 500 Mbps** (formerly 150 Mbps x 150 Mbps)
- The new **Premium** package will provide **1 Gig x 1 Gig (formerly 300 Mbps x 300 Mbps)**
- The new **Ultra** package will launch, offering speeds up to **2 Gig x 2 Gig (formerly 1 Gig x 1 Gig)**

With these enhancements, CASSCOMM is proud to bring multi-gig internet speeds to residents across all fiber service areas. While multi-gig options have previously been available to businesses, this marks the first time such speeds will be widely available to residential customers.

“We’re excited to introduce new fiber packages and deliver faster speeds to our communities,” said Casey French, Marketing and PR Director for CASSCOMM. “This upgrade reinforces our commitment to providing reliable, high-quality internet service for families, businesses, and communities throughout our service area.”

ABOUT CASSCOMM: Based in Virginia IL, CASSCOMM has offered high quality services to its customers since 1898. It is a family-owned business, providing services for over a hundred and twenty years. CASSCOMM offers cable TV, Internet and Telephone services to 35 communities and is currently working to upgrade all its communities to offer Fiber to the Home (FTTH).
