

THINK BEFORE YOU CLICK.

YOUR BEST DEFENSE STARTS WITH YOU.

Cybersecurity and a little caution can go a long way online. Scammers are getting smarter, so keep these tips in mind to stay one step ahead:

- **Think before you click.** Look carefully at the sender's email address.
- **Protect your data.** Use strong passwords and multi-factor authentication.
- **Stay up to date.** Install software updates and be careful what you share online.

At CASSCOMM, we're proud to keep our community connected and help our neighbors stay safe.

CONNECT SMART. STAY SAFE.
